Origin of the Project

I began listening to *No Agenda* toward the beginning of 2013 on the recommendation of a now-man-overboard coworker. This was in the days of the FBI Six-Week Cycle, out-of-control TSA shenanigans, and Constitution-hating Democrat gun-grabbers crawling out of the woodwork in the aftermath of Sandy Hook.

I was inspired in 2014, at the mention of – on Show 518, I believe – summaries of the very earliest shows by KD “Bubba” Martin, to consider doing my own series of transcripts as a way of exploring the history of *No Agenda*. An early pilot project convinced that such task would be insurmountable via solo effort, after three hours of work on Show 10. So I decided to shoot for a bronze medal instead.

This project aims to be a resource that at least partially answers the questions “when did John and Adam play that funny clip about *[insert topic here]?*”, and “how did that funny *[insert meme here]* thing get started?” I’m not really here to give you the punch line, I’m here to tickle your memory. In simplest terms: this is not a substitute for The Real Thing.

Suggestions and corrections will of course be welcomed. I often fail to get the timestamp for the opening one-liner, so anyone who can cough one of those up will be heartily congratulated.
